

# simStateSpace: Internal Tests

Ivan Jacob Agaloos Pesigan

## Tests

```
#> test-simStateSpace-sim-beta-n
#> -- Error: test-simStateSpace-sim-beta-n -----
#> Error in `SimBetaN(n = n, beta = beta, vcov_beta_vec_l = vcov_beta_vec_l)`: object '_simStateSpace' not found
#> Backtrace:
#>      x
#>  1. +-testthat::expect_true(...)
#>  2. | \-testthat::quasi_label(enquo(object), label, arg = "object")
#>  3. |   \-rlang::eval_bare(expr, quo_get_env(quo))
#>  4. +-base::Reduce(f = `+`, x = SimBetaN(n = n, beta = beta, vcov_beta_vec_l = vcov_beta_vec_l))
#>  5. \-global SimBetaN(n = n, beta = beta, vcov_beta_vec_l = vcov_beta_vec_l)

#> Error:
#> ! Test failed
```

## Environment

```
ls()  
#> [1] "root"
```

## Class

```
#> [[1]]  
#> [1] "root_criterion"
```
